

## BOADICEA RESOURCES

ASX Announcement – 11 April 2016

ASX Code: BOA

### **Boadicea Resources Featured on *The RedChip Money Report* on Bloomberg**

Boadicea Resources Ltd ([ASX: BOA](#)) announced today that its Executive Chairman and CEO, Clarke Dudley, was featured in an interview on *The RedChip Money Report* television program which aired yesterday (Sunday, April 10, at 5:30pm AET on Bloomberg Australia, 3:30pm HKT on Bloomberg Asia, and 3:30pm GMT on Bloomberg Europe).

In the interview Clarke Dudley gives an overview of the Company and its key Symons Hill project which is in the final stages of outlining its targets, to be followed by aircore drilling and then diamond drilling angling for a big result in the next three to six months.

The focus remains on the Company's Symons Hill Project. The \$1.8 billion deal with Independence Group taking over Sirius Resources, whose major asset is the world-class Nova nickel deposit puts Boadicea's Symons Hill licence in an enviable position as it is the only Australian listed company whose licence joins the Nova licence and is on the north-east trend of this major discovery. Boadicea has reaffirmed its commitment to continuing to develop this project.

The full interview segment can be viewed online at <http://www.redchip.com/media/1455>

"The RedChip Money Report" delivers insightful commentary on small-cap investing, interviews with Wall Street analysts, financial book reviews, as well as featured interviews with executives of public companies. The show is hosted by Dave Gentry, a leading authority on small-cap stocks and the author of *Small Stocks, Big Money*, published by Wiley Finance.

Dave Gentry has made multiple guest appearances on both CNBC and Fox Business News.

**Disclaimer:**

Information included in this release constitutes forward looking statements. Often, but not always, forward looking statements can generally be identified by the use of forward looking words such as "may", "will", "expect", "intend", "plan", "estimate", "anticipate", "continue" and "guidance" or other similar words, and may include, without limitation, statements regarding plans, strategies and objectives of management, anticipated production or construction commencement dates and expected costs or production outputs.

Forward looking statements inherently involve known and unknown risks, uncertainties and other factors that may cause the company's actual results, performance and achievements to differ materially from any future results, performance or achievements. Relevant factors may include, but are not limited to, changes in commodity prices, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the speculative nature of exploration and project development, including the risks of obtaining necessary licenses and permits and diminishing quantities or grades of reserves, political and social risks, changes to the regulatory framework within which the company operates or may in the future operate environmental conditions including extreme weather conditions, staffing and litigation.

Forward looking statements are based on the company and its management's assumptions made in good faith relating to the financial, market, regulatory and other relevant environments that exist and effect the company's business operations in the future. Readers are cautioned not to place undue reliance on forward looking statements.

Forward looking statements are only current and relevant for the date of issue. Subject to any continuing obligations under applicable law or any relevant stock exchange listing rules, in providing this information the company does not undertake any obligation to publicly update or revise any of the forward looking statements or advise of any change in events, conditions or circumstances on which such statement is based.
